"The collection of coins has not only become an infatuating and engrossing pursuit among thousands of persons of all ages and either sex, but out of it has grown up an extensive trade, furnishing the means of livelihood to numerous individuals in all our large cities. Prices have risen a hundredfold,in some cases almost incalculably; unreasonably; and speculation has been rife...

(from The American Journal of Numismatics, Vol. 1,No.1, May 1866.)

OUR TERMS OF SALE

1. All coins are guaranteed genuine. I will replace or issue a refund for any coin found not to be genuine. This is a lifetime guarantee. Over ten years of business I have never had to make good on this promise. But I make it anyway for your protection.

2. All attributions are guaranteed correct. Also a lifetime guarantee. I will issue a refund or if available provide a replacement for any coin found to be mis-attributed.

3. A full thirty day return privilege is allowed on all purchases.Returns may be made for any reason,or no reason. My business depends on attracting repeat customers. It does neither of us any good for you to keep a coin with which you are not completely satisfied. I am confident that the overall quality and value of the material I offer here is second to none. This does not mean that you might not order a coin that fails to satisfy your personal taste or desire. It is even possible for me to have missed a defect or to have been been optimistic about the grade. It can happen. But it is not my intention. I encourage you to use the thirty days as an approval period. Feel free to show your purchases to other knowledgeable EAC members. Get a second opinion. All sales are final after the thirty day period, though I will certainly consider an extension upon reasonable request.

4. Approval service is also available to established clients. Seven days inspection is allowed on approval service at which time the coin must be returned or funds remitted. Approval sales are considered final after the seven days. Extensions are available upon request.

5. All orders are sent postpaid.

6. Strict ANA and EAC guidelines are followed in grading.

In addition to strict ANA and EAC guidelines I have introduced "value" or "net" grading into my descriptions. Sharpness or technical grade according to ANA standards is fairly easy to describe with consistency. However most old copper coins have acquired defects over time that detract from the overall desirability of the coin. I describe these defects and deduct from the technical grade based on their presence. As an example a coin might be described : "1805 S-267 VF20 Sharpness of VF30 with smooth brown surfaces, some light pinscratches where corrosion was removed at K1 reverse." Here is a coin VF30 by ANA standards but with scratches at one o'clock on the reverse. Plainly the

coin would be more desirable were the scratches not present. I describe the defects and deduct ten points from the overall grade. The first grade listed represents the net or value grade. Clearly this is an art and elements of subjectivity are inevitable. Where there is no second grade listed.

It is my opinion that the net grade is the same as the sharpness grade. Perhaps not perfection but whatever marks present have been judged to be consistent with the technical grade of the coin and do not detract from the net grade. The intent is for you to have as close an idea as possible of the overall condition of the coin you may wish to purchase. No unpleasant surprises!

7. I attempt to give a rarity rating for each variety listed. These in large part reflect the current EAC rarity ratings as compiled by Jack Robinson's Copper Quotes. I also offer opinions relative to condition census ratings die state and condition rarity. These change constantly as new coins are discovered and reported. I attempt to use the latest data or information available. Still these ratings cannot be 100% accurate and remain a matter of opinion only. Having said this I can also say with confidence that more information and more research is available on Early Copper than any other area of American Numismatics. Large Cents have been actively collected and researched for more than one hundred years. One can therefore have a high degree of confidence in the general accuracy of current information. I urge all my clients to form the numismatic library necessary to allow them to make informed judgments and purchasing decisions. It is foolish to invest money in coins if you have not already invested in the books and other sources necessary to the full enjoyment of them.

8. I have yet to meet a pure investor who has profited by investing in rare coins. Collectors who form a discriminating collection over a period of years have often done quite well from a financial perspective. Most collectors find that the enjoyment, education, and friendships formed as a result of their collecting pursuitshave been their greatest reward. It is much easier to lose money quickly than to make money quickly in rare coins. If you are not willing to undertake the educational process necessary to make well informed decisions regarding your collection you will almost certainly lose. Coin dealers are often more than willing to give investment advice. When asking a cat which canary to buy remember his first concern may not be how well it sings.

I have really enjoyed putting this catalog together. Whatever your tastes there should be something of interest. There are several condition census level coins. I have also made an effort to include many more affordable coins. I have increased my interest in Colonial coins so you will see and expanded section devoted to that speciality. I just purchased a nice collection of half cents from a California collector and those are offered here. A nice group of cents of 1794 highlights the Sheldon cents. Along

with a lovely 1802 S-240 with the obverse crack. I've also included an 1800 S-194 which I recently purchased from Bob Everett, one of my favorite people in the coin hobby. Bob and I both saw it as a nice mid-range VF it came out of this years EAC as F12. There's a photo, so you can make a guess too! I offer one of the finest known 1829 N-9s, A rare fully struck specimen. The only other CC level full strike I am aware of is the VF35 ex R.S.Brown lot:673. My next catalog won't be out until December. So give me a call if you see something of interest.

Bob Grellman and I just completed our most recent sale in Cicinnati.We expect to have a great sale at the FUN convention in January. If you would like to consign to that sale please contact me soon as we have a limited number of lots available.

I will be attending Superiors upcoming sale scheduled for Oct.11. If you would like me to examine lots or execute bids at that sale contact me here or after Oct 9 at Superior 1(800)421-0754. Also the Dennis Mendelson sale of Large Cent literature. I'll be happy to bid for you in either of these sales. Following the Superior auction I will be at the the Long Beach convetion Oct 14-18. Table #16. They have been doing some remodeling so you may have to look for me.

1793 S-9 R2 VG10 WREATH $ 1450.00
VF20 or slightly better. Smooth tan and brown from an old cleaning though appears natural enough. COMMENTS

I picked myself up off the ground carefully sizing up the goon

who had knocked me down. Maybe five foot two inches tall, by a 105 pounds, wearing one of those flower print dresses popular in the forties. I figured her age at 67. I knew I could take her easily in a fair fight, if it came to that. Then again, she might be armed. After all this was New York.

I arrived at La Guardia Airport at around 11 a.m. after taking a 5:45 a.m. out of Oklahoma City. A little early in the a.m. for my tastes. But an exhilarating cab ride from Fiorello to the St Moritz Hotel across from Central Park woke me right up.

Upstairs at lot viewing there was the usual crowd of folk milling around waiting to get in. But this time I had called ahead to Elaine at Bowers to reserve space and I was able to get a seat right away. This was a bit of a last minute trip for me as I do not regularly go to east coast shows and auctions. But the draw of the Bill Easley half cents and a $205 round trip air fare had lured me out. Actually, unlike some country boys, I really like New York. There is an air of excitement, things to do, everybody's on the hustle.

I hustled myself into a seat and began viewing lots. One reason I had been persuaded to come out for this sale was the interesting collection of half cents put together by Bill Easley. I first came in contact with Bill about ten years ago. He was actively putting together half cents and had an eye for the unusual. As I went through the collection here, I could see the results of his particular taste. This was not a connoisseur's collection, but rather that of a student. The coins were not of exceptional choice quality or high grade, but most had a secret, a story to tell. Sometimes it jumped out at you; sometimes it had to be discovered.

The very first lot, a beat up 1794 C-2. Nothing special. Sharp obverse, weak reverse, porous. Its allure, I discovered, was not any obvious trait that it possessed, but rather, what it lacked: edge lettering. C-2 comes with small letters (common) and large letters (rare). This is the first example I remember seeing with no edge lettering. I examined it carefully and saw no evidence of tampering with the edge. It looked to be real. But what did it signify? Essentially all this was, was a planchet that failed to make its trip through the edge lettering device. Its an error, not a die variety in any real sense. Still, it was interesting. Now, how to determine its value? More than a small, but certainly less than a large. Hmmm....

Several double strikes, edge clips, and off centers later, I came to a lot with more conventional allure: the 1796 no pole. This was a very nice coin. A couple had appeared in the Roger Cohen sale. Neither one of them very nice. This example, though worn, had a full strong obverse and a readable date, some reverse remaining, but most of all, a reasonably smooth brown planchet with original surfaces. Really, a relatively nice example for what it was. I remembered it as the coin Ron Guth had discovered and had in his possession at the Milwaukee ANA
some years ago. Apparently he had sold it to Bill and now here it was here. I wonder who'll go home with this one.

There were several 1802 half cents with cent undertype visible. Though it is thought that all 1802 half cents were struck on cut down large cents evidence of the large cent undertype is rarely visible. A few lots later, a nice off center 1807 that I judged to be a little better than a similar coin in Cohen. A pretty nice two star break 1811. The AU55 1825 C-1's both turned out to be clean. Here's a double struck 1828 C-3 and a matched pair of 1834's both with the identical struck through error. Did the same flake of metal stick to the obverse die in the exact same position twice?

It took awhile for me to recognize the large cents as the remainder of Bob Rector's extensive collection. Many of the scarcer coins had been dispersed privately over the past couple of years. What remained was predictable. Some nice coins, some not so nice. Just like most collections. A lot of the coins were grouped in lots. An advantage for me as a dealer, as most collectors won't

want to buy five duplicates just to buy one coin they need. At the same time, the auction company, knowing they have to sell everything, will often put one or two nice coins in a lot surrounded by four or five generics. Knowing you will have to figure the also rans at a reasonable price to obtain the nicer coins. As usual in this sort of situation, I received a few pre-sale proposals. "Hey, if you get lot so and so,I'd be interested in the nice 1800.." That's fair enough. I'll pursue that lot a little more aggressively knowing that one of the coins is already sold. They get the coin they want; I get the balance for inventory.

Don Valenziano had graciously invited me to stay with him while I was in New York. So I met Don and we took the train back to Long Island. I was back bright and early the next morning to finish up lot viewing. A difficult task in that there seemed an unending number of lots I was interested in seeing even though some of them I had no intention of buying. Bowers auctions have a large following for one reason in particular: Dave Bowers expends great effort to present interesting, educational, truly numismatic material. Every Bowers auction I have attended I have left smarter than when I came. I've been exposed to numismatic items, both rare and common that I would not have encountered elsewhere. This auction contained many diverse items from 1796 no pole half cents to a '74 CC dime (find another), an 1895 dollar, a great group of counter stamps, an 1825/4 $5 gold piece, a group of Bryan money, an outstanding group of Washington medals. Be assured the 1825 five (which brought $96,000.00) pays its own way. But the amount of attention and expensive catalog space given to counter stamps and Washington medals is given as a service to the hobby. And if you never buy a coin, you should subscribe to the firm's catalogs for this reason alone.

I dragged myself away from lot viewing as soon as I could in order to have a visit with Denis Loring and his wife, Donna. A nice walk across Central Park took me to their apartment building which is right next door to the Dakota where John Lennon was killed some years ago. The Loring's apartment is high up with a spectacular view of the city. I got a look at D. W.'s fabulous library. A few years ago when he was doing a bit of house-cleaning, I obtained Denis's complete sets of AJN and the Numismatist as well as Mel's Monthly and Numismatic Review. It looked a bit crowded in there to me. I sensed the huddled masses of Denis's sets of Stacks and New Netherlands catalogs yearning to be free. Denis was deaf to their cries however and I had to settle for a nice G5 1796 S-98 he had cherried at a local show earlier in the week.

But the best part of this visit was getting to see Donna Loring again who I had last seen several years ago at Orlando EAC. Donna is a lot of fun and every bit a match for D.W. L. Donna told a fantastic story about being sent down to Texas. Some of you might remember an L.A. Law episode some years back based upon a similar story. Apparently there was a big fight over what constituted the correct set of phenotypes in a particular breed of bull semen. Being an Oklahoman, I have more than a passing acquaintance with Texans so I wasn't surprised at how graciously Donna was received by those Texas cattlemen. They even allowed her to witness some of the harvesting process. Those Texans, always willing to oblige a lady. They sent her driving up to Nebraska with 200 gallons of bull semen in the back seat of her rental car. Donna said she drove very carefully not wanting to come to an untimely end that would be described in the newspapers as "New York Lady Lawyer Drowns In Car Crash."

After my enlightening visit with the Lorings, I returned to Don's where we cooked a couple of steaks, opened a beer and plotted strategy for the next morning's sale. Monday morning, 10 a.m. the sale begins. Don is carrying bids on some of the half cent errors for a Missouri collector. The first lot, the aforementioned 1794 no letters, goes his way. The '95 C-60 goes to George Trostel, a collector from Connecticut. Here comes the no pole '96. Look up near the front of this catalog and you can find a more complete description. I really

like the off center 1807 and buy it for my own collection. Don and I are both in the hunt on the 1811 C-1 two star break, but it goes to J.R. M. at $2300. A nice EF 1826 C-2 brings $675. I buy several of the large cent group lots as well as a choice 1843 N-3 I owned once before. There are a few hundred lots before the colonials go off. I spend most of it across the street walking through Central Park. I got distracted watching some artists that paint chalk murals on the sidewalk, but get back just in time to see a lot of 60 1902 O-2 dollars graded MS63-64 go for $5500. They must be nice dollars. Hard to call them scarce though when four more identically described lots of 60 coins each follow. I execute some bids on a few of the colonials and pick up a few pieces of mass silver for inventory. A nice EF Oaktree twopence and a nice large size Pine Tree shilling. This is an underappreciated area and I expect values to rise once Dave Bowers' colonial book comes out. A nice Connecticut M.7-e goes for $800 to Steve Tannenbaum. There are some nice Fugios. The club rays UNC but with some noticeable scratches goes for $1700. The mint state 11-b at $1300. The choice EF 15-y at $800.

The evening session begins with a group of 1796 coinage. A couple pieces I wondered where I had seen before. At ANA in Pittsburg a friend of mine who works at ANACS asked if I could do him a favor. We roped in my buddy T.R. and were escorted off the main floor into the ANACS authentication room. J.P. Martin started handing us coins to grade and authenticate. A nice mint state '96 S-119, an almost as nice S-93. A choice AU 1796 half cent, another one-full mint state. A third mint state 1796; this one without the pole. "Hey, whose stuff is this?" Remembering my experience in Pittsburg I realized the coins here were mere castoffs, but pretty nice castoffs nevertheless. Another '96 no pole; this one goes to the book. An S-82, maybe net VF20, but some bad scratches brings $1100. A nice enough net F12 S-103 LIHERTY brings $1200. A few lots later the neat late die state '97 C-1, lot 76 in Roger Cohen's sale,brings $900 exactly one bid below what it brought in Cohen's sale. The nice VF chain S-3 reasonable enough at $8250. I had looked at the S-70 from the Krugajohn Sale for a client. It was a nice coin but no better than an EF. A nice AU50 S-269 brings a strong $2700. A chance to bid on the 1807 S-271 comet was one of the main attractions of this sale for me. The coin was in an NGC slab MS62. I expected at worst an EF45, maybe AU50 by EAC standards. Instead, I saw it as a cleaned, burnished recolor job. There ought to be a law, and there probably is one. One coin everybody noticed was the 1842 small date, a pretty mint red and brown coin. Unfortunately, some previous owner had written the number 24 in the right obverse field with a fountain pen. The black ink was visible in the field and underneath it faint scratch marks left by the pen tip.
Well, you can't win them all, but I did win a few. Thanks to my host's hospitality I had an enjoyable time. We took the train back to Hicksville, ordered a pizza, and watched the Dolphins/Browns game. I finally discovered something worse than the slab coin market. It's the Cleveland Browns defense.
